About BAH International

More than a hundred physicians and surgeons are serving in three different branches of Büyük Anadolu Hospitals.

Büyük Anadolu Hospitals (BAH), which caters services for health treatment and cosmetic surgery with comfortable accommodation facilities many people from Turkiye and worldwide with its nearly 30 years of experience in the field of health and its qualified physicians, opens its doors for a better life quality to you.

We invite our valuable guests globally to receive privileged and high-quality services with a wide range.

**Confidence in
Healthcare
for 30 Years**

MISSION

In order to continuously develop and improve with the aim of increasing the quality of life of people around the world;

- To provide preventive and curative health services with the highest quality that medicine has reached,
- To provide health services to all communities in need,
- To support the development of new knowledge and practices in all matters related to health,
- To support the teams consisting of physicians-health professionals-support services, whose human love is constantly increasing, who are devoted to their profession and who are highly qualified.

VISION

To be among the leading health groups not only in Türkiye but also around the world, with Türkiye's pioneering practices that provide quality health services and adopt a people-oriented approach.

In addition, it is to be a health institution with competitive power and advanced equipment that provides medical diagnosis and treatment services at international standards and renews itself in accordance with the changing and developing conditions in the provision of services.
